- This client has a “-” for questions 2, 4, 5, 8, 9, 11, 12, 14, and 16, because she was ineligible for those questions, because she had not left the program. She will not be counted in the percentages for those questions.
- The client has a “0” for question 3, 6, and 19 because she was eligible for those questions, but was not successful. For example, for question 3, “What percentage of program participants without income at entry obtained employment?”, she did not have income at program entry (so she was eligible for the question) but she did not obtain employment.
- The client has a “1” for question 20, “What percentage of program participants maintained or increased their income though cash benefits, earned income, or combination of both?”, because she was eligible for that question and was successful. In this case, she maintained her current income from project entry to the present time.
